

PRODUCT: Create a “*Food Chains in Plain English*” style video that demonstrates what a **food chain** is (using example organisms from your **food web**). This video needs to show the *movement of energy* from **Producer** to **Consumer** to **Decomposer**.

TIPS:

- Pictures may be hand-drawn or cutout photographs
- Practice, Practice, Practice!!! to make it smooth!!!

NECESSARY INFORMATION: Follow these steps for a successful completion of your video.

1. You **MUST** have a rough draft of a script (writing and sketches) editing by your group _____ and by Mr. C. _____ before you begin a storyboard.
2. You **MUST** have your storyboard approved by your group _____ and by Mr. C. _____ before you begin creating your images and background.
3. You **MUST** have your images approved by your group _____ and by Mr. C. _____ before you begin practicing, practicing, practicing.
4. You **MUST** have Mr. C. listen to your practice session from start to finish before you can sign up to film. _____

★ We are filming on: _____

5. You **MUST** have two other adults listen and give feedback before you can film your project. Adult: _____ Adult: _____
6. **NOW** you are ready to film!

NOTES: Most likely the audio will be re-recorded and added to the video after you have filmed your video.

Don't forget you need to make a page that shows the sources of your information and pictures.
