Dear Parents,

As you know our Science Projects will be due next Friday, February 20. In an effort to support our students in completing high quality projects on time, I am allowing the students to stay until 4pm on this Wednesday (February 11) and Thursday (February 12).

During this project time, students will be able to work with group members on projects as well as use the computers, cameras, and other art supplies necessary to their projects.

It will be helpful if you provide a healthy snack for your child.

Thanks,
Matt Callison
