

Internet Safety

Things We Should Do

- Always ask a parent to use the computer.
- Say nice things to people using the same website.
- Once we read something bad on the computer tell a parent.
- Keep user names and passwords secret.
- Ask your parents to make an online accounts for you.
- If someone sends you a bad message don't reply.
- Make sure you tell your parents about an email in case there are virus.
- Tell parent if someone wrote something bad.
- Don't write bad things on other people's accounts.
- Log off when finished.
- Ask a parent before you go online.
- Ask mom or dad before signing up for something.
- Be polite to others' online.
- Tell your parent if someone wrote something bad.

Things We Shouldn't Do

- Don't use other people's accounts.
- Don't go to "over rated" website-ones that aren't for kids.
- Don't give your user name and password.
- Don't ask your parents to sign up for an unknown account. (Find out what the account is for)
- Buy something without telling parents.
- Do not give out personal information about yourself on the internet.
- Don't watch bad things on the internet.
- Don't give out your user names and passwords for your accounts.
- Don't hack on an account
- Don't send bad stuff or viruses to other people.
- Don't log in someone else's account
- Don't say bad words online.
- Don't write email addresses with a bad word.
- Don't type mean things on other peoples websites.
- Don't make your own email account without permission.
